

Please Watch Out for Child with Special Needs

We have a child with special needs. Our child's name is _____

He/she is _____ years old.

He/she usually wears _____

He/she sometimes wanders away, regardless of how closely we watch him/her.

If you see our child and he/she is alone, please call _____
We are probably already looking for him/her.

Please also call 911 and tell them that you have found our child.

_____ does not speak very well. Our child does not understand danger.
He/she might approach a dog or walk into the street without looking. He/she might walk in your house if a door is open.

_____ will become lost very easily and not know he/she is lost. If you ask our child a question, he/she will likely not answer.

_____ may seem to be deaf. However, our child can hear. But he/she does not appreciate or act upon things that he/she hears or sees.

_____ sometimes has outbursts where he/she might scream or shake his/her hands or act in other unusual ways for a few moments. This is like a seizure. Please don't misinterpret any of these motions. He/she never intends to hurt anyone.

We have included a picture of our child.

Thank You,
